 Link issue

Description

As a customer of [ANNA CORI](#) website, I want to review my cart before checkout so I can make the necessary adjustments.

The shopping cart button will be placed in the top right corner of the main menu and will be accessible from any page of the website

The Flyout Cart contains the following options:

- the cart will flyout whenever a user adds a product to the cart or clicks on the cart icon
- can be closed by button, or the user can click anywhere on the page and the cart will collapse
- the user can view or edit the contents
- display essential details of the item: link to the product, picture, quantity, name, price
- a sub-total field - should display the total amount of money for the order without additional fees

Two buttons will be displayed on the mini cart:

 **Configure**

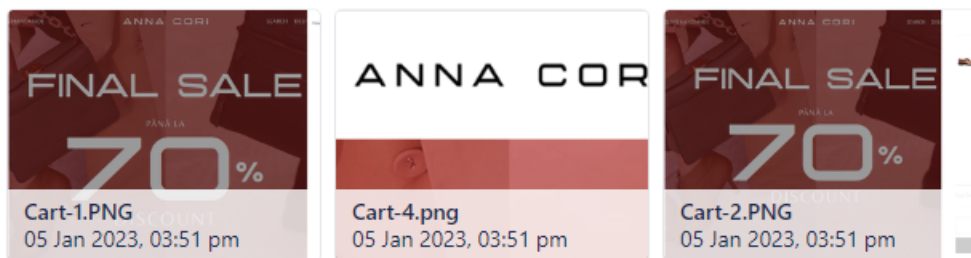

Two buttons will be displayed on the mini cart:

- Go to Cart - opens a new page which displays full details about the state of the cart
- Checkout - link to the Checkout page

Acceptance Criteria:

- be able to view quantities and items in the cart
- be able to to navigate to a page with product details
- If no product is added, following message is displayed 'You have no items in your shopping cart'
- be able to view the price for each item
- a sub-total field should display the total amount of money for the order without additional fees
