Description

As a customer of annacori.com website, I want to be able to reach out the store via a contact form.

The **Contact Form** can be accessed by either clicking the 'Contact' button located in the main menu or by clicking the 'Contact Us' button located in the footer section.

The Contact Form should contain the following fields and options:

- A field where the user should be able to input the name
- A field where the user should be able to input the email address
- A text box field where the user should be able to input details about the request
- A reCAPTCHA functionality
- Submit button

Acceptance Criteria:

- All the fields are mandatory. If one of the fields is not filled out, an error message will appear

 Configure

- Submit button

Acceptance Criteria:

- All the fields are mandatory. If one of the fields is not filled out, an error message will appear
- The user should enter a valid email domain, otherwise an error message will appear
- As a registered user, the name and email fields will be automatically filled
- The text box can be resized
- The form cannot be submitted until the user ticks the reCAPTCHA box, otherwise an error message will be displayed
- If all conditions are met, a confirmation message will be displayed after pressing the Submit button
