Description

When the browser is resized manually the items of the menu are collapsed under a hamburger icon. When the hamburger icon is clicked, a menu should expand and the menu items should be shown.

Steps to reproduce:

1. Open Chrome browser version 108.0.5359.125 (Official Build) (64-bit).

2. The display resolution should be 1920 x 1080 pixels.

3. Resize the browser to have the 1016px and the width to 1067px.

Actual result:

The menu items are collapsed in a hamburger icon. The hamburger icon can be seen at the top left corner but if I click on it, the menu items are not shown.

Expected result:

I expect that when I click the hamburger icon, the menu items are shown.
